

## VTEX AXELKOPPLING JAW

Elastomer / klokoppling

VTEX 42 E  
Kopplingshalva VTEX/ROTEX

- Gjutjärn eller aluminium
- Förborrade eller Taper Lock
- Vtex / Trasco / Rotex

### Produktbeskrivning

Vtex vridflexibla axelkopplingar är elastomerkopplingar som har en kompakt design.

Trots låga vikter hos elastomerkopplingarna kan de överföra höga vridmoment.

De kompakta axelkopplingarna kännetecknas av lång livslängd och goda driftsegenskaper och kan kundanpassas enkelt.

Tack vare elastomeren (elastomerspindeln) mellan kopplingsnaven på axelkopplingarna dämpas stötar respektive vibrationer i driften.

## TEKNISK DATA

Bussning

1610

Max axelhål

42 mm

Vikt

1,4 kg

Ytterdiameter Dy

95 mm
